

Archer Electrical

CASE STUDY/LESUIRE/ 030 SEPT 07

CLIENT: JOE DELUCCIS  
 LOCATION: Derby Westfield  
 DESCRIPTION: Full Electrical Installation  
 DATE: September 2007

We are pleased that we have had the opportunity to again take part in the opening of a new Shopping Centre in the U.K.

The new Westfield Centre in Derby has provided us with the chance to carry out the Electrical Installation for the prototype Joe Delucci Ice Cream Outlet. Our Senior Operations Manager Colin Rai has taken great pleasure in being given the challenge to help with the selecting of the lighting scheme and overall electrical design. Colin was very hands on throughout this project, dealing with the complexities of the Fire Detection System being interfaced with the Main Centres' System, etc., his time provided on site ensured that the electrical installation was delivered to our usual high standards, on time, for the opening of the Centre.

Testimonial:

*"As a company we relish opportunities to be engaged in design aspects and it was pleasing to see our input into this project come to fruition"*

Adrian Archer
