

Archer Electrical

CASE STUDY/RETAIL/ 027 SEPT 2012

CLIENT: STARBUCKS
 LOCATION: Gateshead MetrOasis
 DESCRIPTION: Full Electrical Installation
 DATE: September 2012

MetrOasis, Gateshead is a 15,000 sq ft £5m catering 'meet and eat' development in Gateshead which included a Starbucks a 1,800 sq ft standalone drive-thru unit. MetrOasis proved to be the perfect location for a Starbucks Drive Thru, serving customers who want a premium coffee on the go or want to relax in the superior interior environment or enjoy alfresco seating. Starbucks have announced that it will open 200 "drive-thrus" in Britain over the next five years.

Our electrical installation ran smoothly co-ordinating extremely well with other trades on site, our installation and the project was completed on time to the total satisfaction of the Principle Contractor Caledonia, and Starbucks.

We are looking forward to the opportunity of undertaking further electrical installations for Starbucks in partnership with Caledonia in the near future.

Testimonial:
 What the client said:

"Just a line to thank you and your guys for an excellent job at Starbucks Gateshead. Neil was as efficient as ever as Project Manager and Steve did a very good job on site, establishing and maintaining an excellent relationship with our client, thanks "
