

Archer Electrical

CASE STUDY/RETAIL/ 009 SEPT 12

CLIENT: THOMAS SABO
 LOCATION: Nottingham
 DESCRIPTION: Full Electrical Installation
 DATE: September 2012

Victoria Shopping Centre Nottingham was the location for this new Thomas Sabo and Archer Electrical undertook the electrical installation consisting of temporary site electrics, electrical distribution, new services containment, recessed and track mounted LED lighting complimented with continual edge-lit luminaires and feature chandeliers. A comprehensive installation also included emergency lighting, fire alarm system, data and phone lines, music system, power supplies for AC/ventilation, intruder alarm equipment, tagging equipment, CCTV, and a people counting system which provides technology to count customers within the store and analyzes data providing store performance analysis and total sales opportunities for retailers.

Thomas Sabo was founded in 1984 when Thomas Sabo himself set up his own jewellery company and is recognized for producing jewellery that has flair for detail and keeps an eye on design, trends and fashion-forward pop culture. Thomas Sabo is now popular all over the world, with many a celebrity fan and a ambassador to its name, including Katy Perry, Blue, Beth Ditto and Olivia Palermo to name but a few.

Testimonial:
 What the client said:

"Having worked with Archer Electrical Ltd for several years, we have continually found their work highly commendable. From the office staff to site personnel, they surpass our expectations from an electrical contractor...keep up the good work!"
